Explain:

### Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Explain:

### Consumer Outreach

Describe consumer outreach efforts in the past 12 months: OneSimCard provide the web page with detailed explanation about hearing aid functionality of phones. Customer Support is trained to provide support .

### Methodology for Functionality Levels

We relied on the results of an Equipment Authorization search on the web site of the Office of Engineering and Technology , using the handset's FCC ID numbers. In the event of multiple ID numbers the lowest ratings were reported.
